

# Modeling Guru Accounts and Registration FAQ

---

## How do I get an account on Modeling Guru?

Current NASA Center for Computational Sciences (NCCS) account holders do not need to register! Just use your NCCS account name and your LDAP-enabled password to login on the menu-bar.

**NOTE:** All account holders must abide by the [Content Posting Policy](#)

If you don't have an NCCS account, follow the instructions below to use the online registration page available for obtaining Modeling Guru accounts.

---

## Modeling Guru Web Approval Process

1. Fill out the web-registration form at [https://nccs.nasa.gov/Request\\_Administration\\_clearspace.php](https://nccs.nasa.gov/Request_Administration_clearspace.php)

You'll need to include the following information in your request:

	<ul style="list-style-type: none"><li>• Preferred username &amp; password</li><li>• Your full name</li><li>• Contact phone number</li><li>• Organization affiliation</li><li>• Reason for joining</li><li>• Email address</li></ul>
--	---

2. You will receive an initial confirmation email advising you to wait for approval.

3. After approval, you will receive a second email containing the activation link. After activation, please wait a few minutes for the system to update before you log on to Modeling Guru.

If you have trouble registering, contact NCCS User Services at:

- **Website:** <https://nccs.nasa.gov>
  - **Phone:** 301-286-9120
  - **Email:** [support@nccs.nasa.gov](mailto:support@nccs.nasa.gov)
- 

## I forgot my account name. How do I find it?

Please contact NCCS User Services at the phone number listed above.

## I forgot my password. How do I reset it?

Please contact NCCS User Services at the phone number listed above.

## **How do I change my password for Modeling Guru?**

You can change your password at the NCCS user page: [https://www.nccs.nasa.gov/LDAP\\_pwchange\\_Gateway.php](https://www.nccs.nasa.gov/LDAP_pwchange_Gateway.php)

Please note that this is your LDAP password and that it will change your NCCS password for all applicable systems, such as Discover or Palm.
